01 YOUR NUMBERS

Two closed deals in 30 days, against one month's fee.

The price is published: USD 275 (SAR 1,031) per accepted meeting, USD 5,500 (SAR 20,625) for a month of 20. The contract guarantees that at least 18 of 20 qualify and that 2 closed deals land within 30 days of the first delivered meeting, or we keep working at no charge. These two pages set that against your own deal: deal value and close rate are your inputs, not our figures.

The 30-day clock: it starts at the first delivered meeting; two deals close inside it, or the next months are free.

The formulas

Month-one invoice	accepted meetings × USD 275, invoiced weekly; nothing upfront
Break-even for the two deals	5,500 ÷ 2 = an average deal of USD 2,750 equals the month's fee
Revenue from two deals ÷ fee	(2 × your average deal) ÷ 5,500
Accepted meetings for one deal	1 ÷ your close rate

Month one: you pay for accepted meetings only

Accepted of 20	Month-one invoices (USD)	Replaced or refunded	Cost per accepted meeting (USD)
20	5,500	0	275
19	5,225	1	275
18	4,950	2	275

A missing or unqualified meeting is replaced within 10 days, otherwise USD 275 (SAR 1,031) is refunded in cash within 5 business days. So an accepted meeting costs USD 275 whatever the count. From month two: USD 5,500 (SAR 20,625) in advance; replacements and refunds settle on the statement.

Two deals in 30 days, by average deal value ILLUSTRATION

Average deal (USD)	Revenue from 2 deals (USD)	The month's fee (USD)	Revenue ÷ fee
10,000	20,000	5,500	3.6×
25,000	50,000	5,500	9.1×
50,000	100,000	5,500	18.2×

Deal values are round, illustrative inputs; put your own average deal in their place. "Closed" means a signed contract or a first invoice paid, at or above the minimum deal value you set at onboarding; set it where two deals matter to you. Break-even: 2 deals averaging USD 2,750 equal the month's fee.

02 SENSITIVITY

Beyond the two deals: if your close rate moves, what changes?

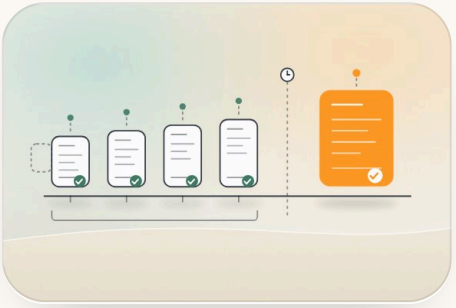

Deals and revenue from 18 accepted meetings, by your close rate ILLUSTRATION

Each cell: number of deals / revenue in USD. Rows are average deal value; columns are your close rate. The two guaranteed deals are a written term; anything above them is an estimate that depends on your closing.

Average deal (USD)	Close 5%	Close 8%	Close 15%	Close 20%
10,000	0.9 / 9,000	1.4 / 14,400	2.7 / 27,000	3.6 / 36,000
25,000	0.9 / 22,500	1.4 / 36,000	2.7 / 67,500	3.6 / 90,000
50,000	0.9 / 45,000	1.4 / 72,000	2.7 / 135,000	3.6 / 180,000

Close rate and meeting count

Close rate	Accepted meetings for one deal	Meeting spend per deal (USD)
5%	20.0	5,500
8%	12.5	3,438
15%	6.7	1,833
20%	5.0	1,375

Month one: weekly invoices for accepted meetings only, nothing upfront; from month two, USD 5,500 (SAR 20,625) in advance.

Example: an average deal of USD 25,000 ILLUSTRATION

1. **The two guaranteed deals**
   2 × 25,000 = USD 50,000 within 30 days of the first meeting, or we keep working free.
2. **The month's fee**
   20 × 275 = USD 5,500 for 20 accepted meetings; month one invoiced weekly.
3. **Revenue ÷ fee**
   50,000 ÷ 5,500 = 9.1× the month's fee from the two guaranteed deals alone.
4. **The close option**
   If we close the deal for you: USD 1,500 (SAR 5,625) per deal closed by us; nothing if you close it yourself.

> **This is not a revenue promise.** An illustration with example inputs and the published price (USD 5,500 (SAR 20,625) a month, excl. VAT). The only guaranteed terms are 18 of 20 accepted meetings and 2 closed deals within 30 days, while you keep the four client obligations.
